

ROSSA MONZA

See Better, Roll Better, Putt Better

Superior linear alignment system and distinctive design positions mass behind the ball for outstanding feel

PERFORMANCE

- Inspired by demand among tour professionals for putters with vivid visual alignment support
- Makes simple work of aiming and rolling the ball on the intended line

FEATURES

- Large, deep, triangle-shaped mallet that incorporates two distinctive red CGB (Center of Gravity-Back) Pipes positioned perpendicular to the clubface and bisected by a clear, white sight-line
- Titanium CGB Pipes are precision-filled with Tungsten, permitting a massive shift of more than 100 grams from the front of the putterhead to the rear
- Center of gravity is moved back, optimizing launch conditions for a truer, smoother roll, and improved MOI for increased stability during the stroke and on off-center hits
- CGB Pipes placed directly behind the ball enhances the feel provided by Rossa's Titanium insert technology
- Precision-forged of high-strength, 6061 aluminum and finished in a rich black color via a precision anodizing process that enhances durability and cosmetic appeal
- Distinctive looking red-and-black Medallist grip with Diamond traction, made by Winn; and a new Rossa red-and-black headcover
